

The ELINET session will focus on a central topic of ELINET's work: **"Working together to encourage equity through literacy communities"** and will thus provide an excellent opportunity to communicate ELINET's work to literacy professionals across Europe.

We want to present what ELINET has done so far and plans to do in the future, with a constant reference to literacy policies and good practices in all sections.

Furthermore, we want to establish the ELINET Association and its future working groups during the Madrid conference.
